PROFILE

I am a full Stack java developer adept in all stages of development. I offer 1-year experience in web development bringing forth expertise in:

> Design and Development
> Installation
> Testing
> Maintenance

OBJECTIVE

Secure a position in a creative and dynamic work environment where I can apply my skills in web design and development towards realization of both organization and self-goals.
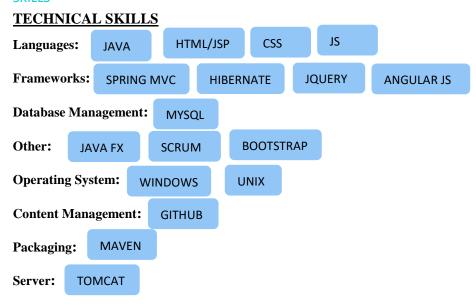

EXPERIENCE

Migori County Referral Hospital

Junior Developer.

> Planned, developed, tested and deployed web application.
> Effectively translated client requirements into app design and requirements.
> Worked well with team and also independently.
> Software and hardware troubleshooting and maintenance.
> Network connections and configurations.

SKILLS

TECHNICAL SKILLS

Languages: JAVA HTML/JSP CSS JS

Frameworks: SPRING MVC HIBERNATE JQUERY ANGULAR JS

Database Management: MYSQL

Other: JAVA FX SCRUM BOOTSTRAP

Operating System: WINDOWS UNIX

Content Management: GITHUB

Packaging: MAVEN

Server: TOMCAT

SOFT SKILLS

Problem solving — Time management — Team work

Hard Worker and Motivated — Fast Learner — HONEST AND RELIABLE

PROJECTS

BIRTH RECORDS

This is a web application I developed used to manage children birth records in Migori County Referral Hospital. It automated the recording, storage and access to the records which was originally paper work.

This application showcases my skills and is proof of concepts including:

> GUI design using bootstrap and CSS
> Data capture, storage and presentation (charts and graphs)
> Search functionality
> Security via login (spring security)
  It can be accessed online via http://birthrecords.herokuapp.com/ and in GitHub via https://github.com/EvansOtieno/mcrhproject.git
  Username: Records & Password: Records2019

EDUCATION

BSc. Computer Science

Grade: Second class honors (upper division)

Egerton University Njoro

Relevant Courses:

> Java Object Oriented Programming
> Operating Systems (Unix)
> Web Development
> Graphics and GUI design
> SDLC Process

INTERESTS

> Technology
> Community involvement, charity work, Group chats and games
> Computer games and animations
> Cooking
